**Invikta** is a simple yet reliable series of micro-processor based solenoid dosing pumps.

Ideal applications are: OEMs, Swimming Pools, Car Wash, Cooling Towers, RO Systems and many other applications.

---

**Features**

- **Operation state LED:**
  - Flashing when operating
  - Slow flashing when pump stops
  - Fast flashing when low level alarm is activated

- **Flow rate manual adjustment** from 0 (operation stop) to 100% of max. flow rate

- **Wall mounting:**
  - Directly on wall
  - With fixing bracket

- **External plastic enclosure in PP with IP65 protection degree** protected against jets of water and aggressive environments

- **Pump head with manual priming valve**

- **Standard 90-265 VAC power supply** (20-60 VAC upon request)

- Pump can be equipped with low level alarm connection upon request
